

# certificate of RECOGNITION

*Presented to*  
**THE CALIFORNIA-MEXICO HEALTH INITIATIVE**  
**IN HONOR OF**

The collaborative program of California and Mexican agencies whose objective it is to coordinate efforts to improve access to health services for the Mexican population of California and their families in Mexico. These efforts will enrich the lives of many.

On behalf of the Third Senate District of the State of California, it gives me great pleasure to commend the Fourth Annual Binational Health Week and all state and local agencies for their participation. I regard this as an important effort to highlight the need to improve health care for migrants and immigrants throughout California.

I hereby extend my best wishes to CMHI and their future bilateral efforts.

*John T. Burton*
