Agreement:

This MOU outlines the agreement between Family HealthCare Network (the Network) and the California-Mexico Health Initiative regarding the workspace for the CMHI Tulare County Regional Coordinator Ms. Sandra Escudero. The Network agrees to provide in-kind office space to the Tulare County Regional Coordinator for the period of one year, upon which date this MOU will be up for renewal/revision. It is understood that CMHI pays the salary and benefits of the Regional Coordinator, and that she is covered by the University of California worker's compensation plan. This agreement includes the following provisions by the Network:

- Workstation, computer, and computer support
- Internet access
- Email address (unless UCOP email works, TBD)
- Telephone line
- Access to fax machine
- Access to printer and paper
- Access to meeting/conference room
- The Network also agrees to receive funds from the University, negotiated at \$1500, to cover some of the expenses incurred by the utilization of the workspace.

This MOU is executed in the interest of developing a stronger partnership between CMHI and Family HealthCare Network, and to stimulate increased community outreach to the migrant and immigrant population in Tulare County.
