The 16th Summer Institute on Migration and Global Health is organized by:
Welcome to the 16th Annual Summer Institute on Migration and Global Health. This academic space is dedicated to present and analyze the interrelation between migration, the health of migrants, and global health from a multi-disciplinary perspective.

During the nine online sessions you will have the opportunity to hear from experts about different health issues that affect mobile populations, and how national and international policies and practices have impacted migrant and refugee populations in Europe, the Americas, and other world regions. You will also have the chance to deepen the subjects, through the readings and supporting materials offered for each session, and engage in discussions with other participants in the virtual classroom.

The nearly 300 million international migrants and refugees worldwide are at high risk of disproportionate burden from diseases, because of social, political, and structural factors associated with their migration status. It is important to mitigate the adverse drivers that impede people from building and maintaining sustainable livelihoods and reduce risks and vulnerabilities that migrants face.

Migration has always been part of the human story and rather than slowing down, it will increase over the next decades. Today, more than ever, we need to have a better understanding of the health effects of migration and improve the skills of those individuals dedicated to conducting research, impacting policies, and improving health services related to migration and global health. Migration is not a problem; it is a reality, and we need to prepare ourselves and the next generations to manage it in a more humane way.

Sincerely,

Liliana Osorio
Health Initiative of the Americas
UC Berkeley, School of Public Health
How to attend the Summer Institute Live

The day of the conference join the meeting by clicking on the Zoom link sent to the email you registered with. It will be titled “Summer Institute on Migration and Global Health”. If this is your first Zoom meeting on your device, click download and run Zoom. Be sure to write down the passcode found in your email and enter it when instructed.

Join from PC, Mac, Linux, iOS or Android: Click Here to Join

Join by phone: On your phone, dial the conference call number provided on the confirmation email. Enter the meeting ID number when prompted using your dial pad.

Zoom Controls

All Zoom controls are located at the bottom of the screen whether on your phone or on your computer.

"Mute" button: Click on the "Mute" button and when you see a red cross line it means your microphone is off. If you want to speak, click the "Unmute" button and if you don't see the red line it means your microphone is on.

![Mute](image)

![Unmute](image)

"Video" button: Next to the mute button, is the "Stop Video" button. If you want to turn off your webcam press that button. When you see the red line it means the webcam is off.

![Stop Video](image)

![Start Video](image)

"Chat" button: Click "Chat" to open the chat window to write your questions or comments during the presentations.

![Chat](image)
Instructions for Canvas Student Portal

From the home page you will be able to access all sessions. If you would like to go to the Session 1 page to view the discussion question, resources materials, evaluation, and recording, you click on "1".

Session/ Sesión | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9

At the end of every session you will find a discussion question prepared by the speakers. You are encourage to provide your response and comment on other participant's answers.

Here → Discussion Question | Pregunta de discusión

Under the discussion question is the additional resources tab, which contains complementary readings and materials recommended by the presenters. You should read those materials before the session to gain context on the topic beforehand.

Here → Additional Resources | Recursos Adicionales

The session evaluation is a short survey to gather participant's feedback. We appreciate you completing it after each session.

Here → Session 1 Evaluation | Evaluación de Sesión 1
Session 1 - Tuesday, June 15th
Current Status of Migrants and Health Worldwide

Welcome remarks

Migration and Migrants: a Global Overview
Marie McAuliffe, International Organization for Migration (IOM)

Migration and Health: Key issues
Santino Severoni, World Health Organization (WHO)

Remembering Dr. Steven P. Wallace
Xochitl Castañeda, University of California Berkeley

Session 2 - Wednesday, June 16th
COVID-19 and Migrant Populations: Burden, Strategies, and Lessons Learned

Aleksandar Arnikov, International Organization for Migration (IOM)

CDC Public Health Strategies Relevant to the Foreign-born Population
Alfonso Rodriguez-Lainz, Centers for Disease Control and Prevention (CDC)
SESSION 3- THURSDAY, JUNE 17TH
CLIMATE MIGRATION AND HEALTH

Climate Change and Migration: New Insights from a Dynamic Model of Out-Migration and Return Migration
Barbara Entwisle, University of North Carolina-Chapel Hill

Climate change and migration across four continents
David Lopez-Carr, University of California Santa Barbara

Kate Burrows, Yale University

SESSION 4- TUESDAY, JUNE 22ND
MIGRANT'S OCCUPATIONAL HEALTH AND SAFETY

Marc Schenker, University of California Davis

Erica Briones Vozmediano, University of Lleida, Spain

Michael Flynn, National Institute for Occupational Safety & Health (NIOSH)
SESSION 5- WEDNESDAY, JUNE 23RD
ACCESS TO HEALTHCARE FOR MIGRANTS

The Mexican government’s policies to provide health care to migrant populations
*Ricardo Cortes Alcala, Secretariat of Health of Mexico*

*Liz Oseguera, California Primary Care Association*

*Gabrielle Lessard, National Immigration Law Center*

SESSION 6- THURSDAY, JUNE 24TH
MOBILE POPULATIONS RESEARCH AND DATA

*Kolitha Wickramage, International Organization for Migration (IOM)*

Challenges and approaches for measuring health and risks in people on the move
*Ietza Bojorquez, Colegio de la Frontera Norte (COLEF)*

The Ethics of Migration Research and the Drive for Scientific Accountability
*Irene Bloemraad, University of California Berkeley*
SESSION 7- TUESDAY, JUNE 29TH
MIGRATION AND MENTAL HEALTH

Lessons Learned from Undocumented Latinx Immigrants: How to Build Resilience and Overcome Distress in the Face of COVID-19
Luz Garcini, UT Health San Antonio

Karen Carpio, International Organization for Migration (IOM)

The Ulyssess Syndrome: Assessment and Intervention
Joseba Achotegui, University of Barcelona

SESSION 8- WEDNESDAY, JUNE 30TH
CHILDREN AND MIGRATION

Migrant children at the US-Mexico Border
Paul Wise, Stanford University

Tensions and dilemmas in research on early marriage among Syrian refugee adolescent girls in Lebanon: The Amenah Project
Sawsan Abdulrahim, American University of Beirut

Michaella Vanore, United Nations University- Maastricht University
SESSION 9- THURSDAY, JULY 1ST
MIGRATION, INCLUSION, AND SOCIAL COHESION

Socioeconomic inclusion as a health determinant of Venezuelan migrants in Colombia
Julian Fernandez Niño, Colombian Ministry of Health

Migration, Inclusion and Social Cohesion in the Context of European Migration: Multi-Stakeholder Perspectives
Zana Vathi, Edge Hill University

An end of the Hispanic mortality paradox due to cohort changes in obesity during young adulthood
Jennifer Van Hook, Penn State University
 Speakers

ALEKSANDAR ARNIKOV
IOM’s Regional Thematic Specialist on Migration and Health for the Americas based in the IOM Regional Office in San José, Costa Rica. Before joining the IOM team, Aleksandar worked with The Global Fund to Fight AIDS, Tuberculosis and Malaria, with UNICEF, and the World Bank. He is a Medical Doctor from University St Cyril and Methodius in Skopje, Macedonia and has a Master’s Degree in Public Health from the Hebrew University in Jerusalem, Israel and a Postgraduate Diploma in Business and Administration from Sheffield University, United Kingdom.

ALFONSO RODRÍGUEZ-LAINZ
Epidemiologist at the Centers for Disease Control and Prevention (CDC), Division of Global Migration and Quarantine, US-Mexico Unit. Dr. Rodriguez’s main responsibilities include acting as a liaison, planner, and coordinator for Latino migrant health activities for the Division, in collaboration with other federal, state, and international partners. Two main areas of focus have been enhancing public health surveillance of Latino migrants and emergency communication with non-English speaking populations. Since March 2020 Dr. Rodriguez has led CDC initiatives to address farmworkers’ and other immigrants’ needs related to the COVID-19 pandemic.

BARBARA ENTWISLE
Distinguished Professor of Sociology at the Carolina Population Center at the University of North Carolina - Chapel Hill. Her work focuses on the social, natural and built environments and their consequences for demographic and health outcomes. Her current research examines migration processes in relation to life course, household dynamics, and community contexts in the US, southern Africa, and northeastern Thailand.
DAVID LOPEZ-CARR
Professor at the University of California, Santa Barbara. His research focuses on links among population, migration, health, and environment dynamics, with a focus on identifying optimal synergies for enhancing resilience, through ongoing projects in Latin America, Africa, and Asia.

ELIZABETH OSEGUERA
Associate Director of Policy for the California Primary Care Association. Her issue areas include, behavioral health, workforce, specifically as it relates to community health workers, farmworker advocacy, and immigration. As the lead on immigration work for CPCA, she has collaborated with immigrant partners to create resources, such as sample policies and procedures, toolkits and trainings that help health centers prepare staff and patients for a possible encounter with immigration officials.

ERICA BRIONES VOZMEDIANO
Professor at the Faculty of Nursing and Physiotherapy of the University of Lleida, Spain. Her major research interests are in social determinants of health, including migration, and applied qualitative research in public health.

GABRIELLE LESSARD
Senior Policy Attorney at the National Immigration Law Center (NILC). NILC works nationally to defend and advance the rights and opportunities of low-income immigrants. Gabrielle uses policy analysis and advocacy to expand low-income immigrants’ access to healthcare and works with the Protecting Immigrant Families (PIF) campaign to combat policies that deter immigrant families from meeting their essential needs.
IETZA ROCÍO BOJÓRQUEZ CHAPELA
Professor-researcher at the Department of Population Studies, El Colegio de la Frontera Norte, Mexico, where is currently in charge of the Surveys of Migration in Mexico's Borders (EMIF). She is a member of the board of the Lancet Commission on Migration and Health-Latin America Node. She is currently working on an epidemiological study of COVID-19 among migrant and non-migrant population, the development of a model to facilitate access to mental health care for migrants, and a qualitative study of migrants' access to healthcare, among other projects.

IRENE BLOEMRAAD
Director of the Department of Sociology at the University of California, Berkeley and founder of the Berkeley Interdisciplinary Migration Initiative (BIMI). Bloemraad studies the nexus between immigration and the political system. She is the author of "Becoming a Citizen: Incorporating Immigration and Refugees in the United States and Canada." His current work analyzes the relative effects of the politics of multiculturalism for various socio-political outcomes, the prevalence of non-profit immigrants in suburbs and central cities, and the political socialization of people living in families of mixed legal status.

JENNIFER LYNNE VAN HOOK
Van Hook is Roy C. Buck Professor of Sociology and Demography at the Pennsylvania State University, and non-resident fellow at the Migration Policy Institute. Her research focuses on the demographics of immigrant populations and the socioeconomic integration of immigrants and their children. One strand of her work focuses on the health and well-being of immigrants and their children, including the relationship between immigration status, acculturation, and children's diet and risk for obesity.
JOSEBA ACHOTEGUI
Psychiatrist and tenured Professor of the University of Barcelona. Former Re-elected General Secretary of Transcultural Section of the World Psychiatric Association, Director from 1994 of SAPPIR (Servicio de Atención Psicopatológica y Psicosocial a Inmigrantes y Refugiados) of Sant Pere Claver Hospital of Barcelona. Solidarity Award of the Parliament of Catalonia 1998. Re-elected President of the Psychiatrists section of the Barcelona College of Physicians.

JULIAN FERNANDEZ NIÑO
Director of Epidemiology and Demography of the Ministry of Health and Social Protection of Colombia. Professor at the Department of Public Health of the Universidad del Norte in Colombia. He has worked in various research projects on mental health in vulnerable populations in Mexico and Colombia. She has led research projects on the health status of Venezuelan migrants in urban settlements, the collaborative design of information, education and communication strategies on migration and health issues, characterization of the health risks of pregnant migrant women, and Community strategies to prevent gender-based violence against migrant women in the Colombian Caribbean.

KAREN CARPIO
Regional Mental Health and Psychosocial Support Officer at the International Organization for Migration, Regional Office for Central America, North America and the Caribbean. She specializes in the management of health, mental health and psychosocial response programs and policies for vulnerable populations. She has worked as a consultant for PAHO/WHO Costa Rica in mental health topics, and as researcher for the Global Mental Health Program of Icahn School of Medicine in New York. She is an adjunct professor of Clinical and Health Psychology at the University of Costa Rica.
**KATE BURROWS**

Burrows is particularly interested in the relationship between the environment, human migration, and mental health. Her dissertation work is based in Indonesia and explores the effect of displacement on the relationship between landslides and mental health outcomes. Kate is trained in quantitative and qualitative data collection and analysis, and she employs a mixed-methods approach in her research. Her dissertation work is driven by community-based participation and draws on the fields of sociology, demography, and public health, as well as on local knowledge.

---

**KOLITHA WICKRAMAGE**

United Nations Migration Agencies' Global Health Research and Epidemiology Coordinator responsible for providing technical guidance on research and evidence generation across IOM's three health programmatic areas: medical examinations for migrants and refugees; technical cooperation on migration health with member states; and health action in humanitarian, post-crisis contexts and global health emergencies.

---

**LUZ GARCINI**

Nonresident scholar at the Center for the United States and Mexico and an Assistant Professor at the Center for Research to Advance Community Health (ReACH) at UT Health San Antonio’s Joe R. and Teresa Lozano Long School of Medicine. The primary goal of her research is to inform policy and best practices among providers, as well as to develop and disseminate interventions for individuals and families facing adversity. Her current work with Proyecto Voces, which involves both community outreach and research, has generated scientific evidence to document and address the complex health needs of undocumented Mexican immigrants and deportees.
**MARC SCHENKER**
Distinguished Professor Emeritus of Public Health Sciences and Medicine at the UC Davis School of Medicine. His specialty is occupational and environmental disease, with a focus on numerous health outcomes including respiratory and reproductive health, heat stress, and diabetes. He also conducts epidemiologic research on the health of migrant populations with a particular focus on occupational disease.

---

**MARIE MCAULIFFE**
Head of the Migration Research Division at IOM headquarters in Geneva and Editor of IOM's flagship World Migration Report. She is an international migration specialist with more than 20 years of experience in migration as a practitioner, program manager, senior official and researcher. Marie has researched, published and edited widely in academic and policy spheres on migration and is on the editorial boards of scientific journals International Migration and Migration Studies, and is an Associate Editor of the Harvard Data Science Review.

---

**MICHAEL FLYNN**
Flynn is a project officer with the US National Institute for Occupational Safety and Health (NIOSH), where he leads a research program to better understand and improve the occupational health of immigrant workers. Michael is an anthropologist and his research is at the intersection of migration, work and health and focuses on the development of institutional policies and practices to improve the health of immigrant workers. Her interests include the social determinants of health, organizational culture, and intervention effectiveness.
MICHAELA VANORE
Vanore is a research fellow at the Maastricht Graduate School of Governance, where she has worked for the past six years as a researcher and lecturer on migration and development. Within these projects, Michaella has addressed topics such as defining and analyzing poverty among migrant children, assessing the consequences of family-member migration for children and the elderly who remain in the home country, diaspora engagement and contributions in conflict and post-conflict settings, and remittances.

PAUL WISE
Dr. Wise is the Richard E. Behrman Professor of Child Health and Society and Professor of Pediatrics and Health Policy at Stanford University School of Medicine. He is co-Director of the March of Dimes Center for Prematurity Research at Stanford University. Dr. Wise’s research focuses on health inequalities, child health policy, and global child health. He leads a multidisciplinary initiative, Children in Crisis, which is directed at integrating expertise in political science, security, and health services in areas of civil conflict and unstable governance.

RICARDO CORTÉS ALCALÁ
Current Director General of Health Promotion of the Secretariat of Health of Mexico. He has held positions as Coordinator of Advisors of the Undersecretariat of Prevention and Health Promotion, Adviser on Health Safety to the Director General of CENAPRECE, Director of Inter-institutional Liaison and Deputy Director of epidemiological surveillance of cancer in the General Directorate of Epidemiology, and as Deputy Director of the Council of National Health Agreements.
SANTINO SEVERONI
Director of the Health and Migration Program at the World Health Organization. Dr. Severoni has held senior positions at WHO European Office since 2000. In the last 22 years he has been working in several countries in Eastern Africa, Balkans, Central Asia and Western Europe, dedicating his professional work to public health, health sector reforms, health system strengthening, health diplomacy, aid coordination/effectiveness, management of complex emergencies.

SAWSAN ABDULRAHIM
Abdulrahim is Associate Professor of Public Health in the Faculty of Health Sciences at the American University of Beirut. Her research focuses on social inequalities and health across the lifespan, and the structural conditions that influence the wellbeing of refugees and labor migrants.

ZANA VATHI
Professor and researcher in the Department of Social Sciences at Edge Hill University, United Kingdom. Dr. Vathi is a migration expert and has been doing research in this field since 2005. Her work is primarily focused on the multi-scale inclusion and integration of migrants in Europe and beyond. Founder and director of the Migration Working Group - Northwest. Author of several books and scientific articles related to migration.
